Senior Executive Vice President - Accounting and Finance clarified to the Meeting that the gross profit for the rental and service business increased because the occupancy rate was increased. Modena Hotel started its operation towards the end of 2016. In the beginning of the operation its occupancy and room price remained in the low rate. As a result, it suppressed overall gross margin of the business hotel in 2017.

- **Miss Suwannee Chiansirikraiwothi, a shareholder**, asked (1) what the directions of the hotel business growth in 2018 were; (2) what the occupancy rate was; and (3) whether or not the Company planned to increase the rental rate.

Senior Executive Vice President - Accounting and Finance clarified to the Meeting that in 2018, the hotel business would achieve a higher profit because the Modena Hotel would be open for the second year and the operational results should increase. As for the room rate, the hotel was undergoing promotion and marketing activities, thus, the room rate would be approximately THB 1,700 per night.

The Company would increase the rental rates for offices every three years at an average of 12 – 20 percent.

operating the business, the Company conducted risk assessment and risk management and would not simultaneously carry out the entire construction of every project. The Company would complete the house construction in stages taking current market demands into consideration. Accordingly, the Company was able to manage potential risks in the bubble economy.

- **Mrs. Kanueng Makkateeranuwat, a shareholder**, asked whether the Company carried out the construction itself or engaged third-party contractors to carry out the construction.

The President clarified to the Meeting that for the construction of high-rise buildings, the Company would engage third-party contractors because constructing high-rise buildings requires specific expertise and such engagement would effectively alleviate potential risks. For housing development projects, the Company would control in the construction itself for the purposes of effective cost management.

- **Mr. Poonchana Thitamaytakul, a shareholder**, asked (1) whether the decrease in domestic debt had any impact on the Company's business operation; (2) whether the Company has ever encountered the event where the ownership was not transferred because the customers' application for a loan was rejected; (3) whether the Company had introduced any technologies in their business operation in order to reduce its construction costs.

The Managing Director clarified to the Meeting that in 2017, the country's domestic debt decreased following the Bank of Thailand's control of credit approvals granted by commercial banks in order to alleviate the potential risks associated with the bubble economy. However, the Company found that the sales volume was at a satisfactory level and the total revenue still met its forecast. In addition, the Company had procured technologies to apply in its business operation with a view to decrease costs.

As for the issue of customers whose applications for loans were declined, the Company focused on business employees with solid and continuous salaries whose applications for loans were less likely to be declined.

The President clarified to the Meeting that the customers chose the Company's products and services not because they were the cheapest, but because they were good value for money. For example, the Company was the first developer who offered clubhouses in town home projects. In addition, the projects developed by the Company were fully equipped with other facilities which would be worth the price paid by the customers.

- **Mr. Poonchana Thitamaytakul, a shareholder**, asked whether the Company had any plan to adopt alternative technologies.

The President clarified to the Meeting that the Company was aware of various advances in technology; however, if most of the users are not keen on such technologies, such adoption of technologies might not be maximized. Therefore, the Company placed emphasis on providing full public utilities and added features. In addition, the Company also provided other technologies such as the Internet or applications to appropriately meet the market demand.

- **Mr. Thianchai Termwanich, a shareholder,** asked (1) what policies the Company had for the business operation in 2020 to ensure that it would be among the top-five largest real estate developers. Could the Company's growth be described as "Organic Growth" or "Inorganic Growth"? Did the Company have any plan to make a joint investment with any other companies?; (2) As the Company focused on adding value, please give an example and clarify whether the Company would add value by means of increasing sales or which approach the Company planned to adopt in order to add value.

The President clarified to the Meeting that as the Company applied the proactive approach, the 2017 growth was at 30-40 percent. The Company placed emphasis on the residential projects and office buildings. The rapid growth of the Company was based on the Company's financial strength and capabilities of the shareholders, coupled with knowledge and skills of the Board of Directors, the Management, and expertise of employees. As a result, the Company accumulated potential for growth in its core business and was ready for opportunities for significant growth. As for the strategy for adding value, the Company focused on increasing the reservations in residential development projects, providing complete public utilities in order to satisfy the customers' demands, as well as adding value to the employees by promoting and encouraging continuous employee development.

- **Mrs. Kanueng Makkateeranuwat, a shareholder,** asked if a comparison was made between the currently-listed companies in the real estate development business, such as Supalai Public Company Limited, Sansiri Public Company Limited, and the Company, which one could be described as the most successful in the real estate development business.

The Chairman of the Board of Executive Directors clarified to the Meeting that Supalai Public Company Limited and Sansiri Public Company Limited focused on the real estate project development for residential purposes while the Company focused on mixed-type projects and risk allocation by emphasizing integrated real estate businesses in order to achieve sustainable growth, adding value, and seeking to satisfy the customers' demands.

No shareholders asked any questions and/or expressed any opinions. The Chairman, therefore, proposed that the Meeting acknowledge the operational results for the accounting period from 1 January 2017 to 30 September 2017.

The Chairman informed the Meeting that this agenda item was only for acknowledgement, therefore, no voting was required.

In this regard, the Company shall distribute the dividends to the shareholders whose names are set out in the share register book as the date to record the names of the shareholders who are entitled to dividend payments (Record Date) which is Friday, 15 December 2017, on 14 February 2018. The dividend payment shall be taken out of profits, which is subject to 20 percent tax. The individual shareholders are entitled to apply for a tax credit return at the rate of the dividend time 2/8.

The Board of Directors was of the view that the rate of the dividend payment is appropriate and in accordance with the dividend policy, being approximately 53.1 percent and 54.2 percent of the net profits of the accounting period from 1 January 2017 to 30 September 2017 from the Consolidated Financial Statements and the Separated Financial Statement, respectively. In this regard, the dividend payment for the accounting period from 1 January 2017 to 30 September 2017 distributed at the rate of THB 0.25 (25 satang) per share was distributed at a higher rate than the dividend payment for the accounting period ending 31 December 2016 which was THB 0.23 (23 satang) per share.

Agenda Item 7: To consider and approve the appointment of auditors and the determination of the audit fee for the year 2018

The Chairman delegated Mr. Chainoi Puankosoom, Chairman of the Audit Committee (the “**Chairman of the Audit Committee**”), to inform the Meeting with respect to this agenda item.

The Chairman of the Audit Committee informed the Meeting that in order to comply with Section 120 of the PLC Act and Article 41 of the Company’s Articles of Association which provide that the annual general meeting of shareholders shall appoint an auditor and determine the audit fee of the company every year. The Board of Directors, as proposed by the Audit Committee, deemed it appropriate to propose that the shareholders’ meeting consider and approve the appointment of any one of the following three auditors from KPMG Phoomchai Audit Ltd. as the auditor of the Company for the year 2018, having the duties to review, prepare, and execute the audit report:

1. Mrs. Wilai Buranakittisopon, Certified Public Accountant No. 3920; or
2. Miss Nittaya Chetchotiros, Certified Public Accountant No. 4439; or
3. Miss Napaporn Sathitthammaporn, Certified Public Accountant No. 7494.

In considering and appointing the auditor of the Company, the Board of Directors has taken into account the preparedness, scope of services, audit fee, experience, and independence of the auditor, whereby the auditor must have no relationships nor interests with the Company, any of its subsidiaries, executives, major shareholders, or persons related thereto, as well as the auditor’s auditing procedures, and continuity in performing audits. After due consideration, the Board of Directors was of the view that the three auditors are qualified as required by the Office of the Securities and Exchange Commission, as well as are employed by a reputable, reliable audit firm, which is accepted in the general standards.

In this regard, as KPMG Phoomchai Audit Ltd. and all three of its auditors has no relationships nor interests with the Company, any of its subsidiaries, executives, major shareholders, or persons related thereto in any way whatsoever, they has demonstrated independence in performing audits and rendering opinions on the financial statements of the Company and its subsidiaries. In addition, none of the three auditors have been performing this duty for a consecutive period of five years.

In addition, the Chairman of the Audit Committee proposed that the Meeting consider and approve the determination of the audit fee of the Company at the rate of not exceeding THB 1,320,000 in accordance with the following details:

- The fee for auditing the annual financial statement: THB 570,000.
- The fee for auditing the quarterly financial statement: THB 750,000.

In this regard, the increase of the audit fee from the year 2017 by THB 70,000 was due to the change in the accounting period of 2017 to be ended in September 2017. As a result, the accounting period of 2017 comprised nine months (January to September 2017), whilst the accounting period of 2018 comprises 12 months (October 2017 to September 2018). The fee for auditing the interim financial statement increased by THB 250,000 compared to 2017, as the accounting period of 2018 comprises 12 months (with three interim financial statements) which is three months longer than the accounting period of 2017 (with only two interim financial statements). Furthermore, there were more business transactions relating to FYI Projects and Modena Hotel, resulted in higher volume of audit works. If the Company calculate the audit fee for the year 2017 based on the 12-month bases for the purposes of comparison with that of the year 2018 in the amount of THB 1,320,000, the audit fee for the year 2018 would be higher from the previous year by 5.6 percent only.

The Chairman then asked the Meeting whether or not there were any shareholders who wish to raise any questions or express any opinions.

- **Mrs. Kanueng Makkateeranuwat**, asked for the reasons why the audit fee has been increased every year.

The Chairman of the Audit Committee clarified to the Meeting that the audit fee for this year was increased to reflect the increasing auditing works as the Modena Hotel, FYI Centre Building, and Samyan Mitrtown Project are currently being under the development phase. In this regard, the Company had made a comparison of the audit fee proposed to other audit firms and found that the proposed audit fee was comparable to those of other audit firms. Furthermore, to ensure continuity in the business operation, the Company proposed to the Meeting to approve the appointment of the auditors from KPMG Phoomchai Audit Ltd. as the auditor of the Company and to approve the audit fee as proposed.

- **Miss Suwannee Chiansirikraiwuthi**, asked what the amount of the audit fee for 2016 was and why the audit fee has been increased considering that new technologies have been adopted in performing the audit works and that no overseas travel is required for the auditor to perform the audit work.

The Chairman of the Board of Executive Directors clarified to the Meeting that the audit fee for the year 2016 was THB 1,120,000. The reason for the increase of the audit fee was that the audit work has increased and the scope of audit of the Company has been expanded, i.e., the Company has invested in the Golden Ventures Leasehold Real Estate Investment Trust (GVREIT). In addition, several projects of the Company are either under the development and early management phase. However, in consideration of good corporate governance, the Company had made a comparison of the audit fee and the qualifications of auditors in the same industry.

In addition, KPMG Phoomchai Audit Ltd. is a reputable and reliable audit firm and is accepted in the general standards and the audit fee is reasonable and in line with the volume of audit work.

- **Mrs. Kanueng Makkateeranuwat**, asked whether or not the Company would be able to negotiate with KPMG Phoomchai Audit Ltd., the auditor, not to increase the audit fee for the following year.

The Chairman clarified to the Meeting that the Board of Executive Directors and the Board of Directors had reviewed and considered that the audit fee was in line with the increasing audit work. However, the Company would exercise its best effort to negotiate the audit fee for the following year.

The Chairman of the Audit Committee clarified to the Meeting that the adjustment of the audit rules and standards of the Federation of Accounting Professions every year resulted in the increase in the audit works to be performed by the auditors. However, the Company would try to negotiate with the auditor in fixing the audit fee in the maximum interests of the shareholders.

No shareholders asked any further questions and/or expressed any further opinions. The Chairman, therefore, proposed that the Meeting approve the appointment of auditors and the determination of the audit fee for the year 2018.

The Chairman informed the Meeting that the resolution on this agenda item shall be passed by a majority vote of the shareholders attending the Meeting and casting their votes.

Resolution: After due consideration, the Meeting resolved to approve the appointment of auditors and the determination of the audit fee for the year 2018, by a majority vote of the shareholders attending the Meeting and casting their votes, as follows:

Resolution	Number of Shareholders (persons)	Number of Votes (1 share = 1 vote)	Percentage of total votes of shareholders attending the Meeting and casting their votes

- **Mr. Chaiwut Prompanich, a shareholder**, asked regarding the acquisition of the newly-issued shares of the Company by Frasers Property Holdings (Thailand) Co., Ltd. ("FPHT"), as to what FPHT's investment direction in the Company is and whether or not FPHT's business operation is overlapping with the business of the Company.

Chairman of the Board of Executive Directors clarified to the Meeting that the Company's business operation does not overlap with the business of FPHT. The investment of FPHT in the Company would strengthen its management and financial capabilities. In addition, FPHT would introduce its know-how and international business operation approach to the Company which would enhance its business operation and bring about sustainability to its development.

- **Mr. Chaiwut Prompanich, a shareholder**, asked how much the recognized revenue from the ownership transfer as at 31 December 2017 was.

Chairman of the Board of Executive Directors clarified to the Meeting that the Company had the recognized revenue from the ownership transfer as at 31 December 2017 of approximately THB 4 billion.

- **Mr. Rakchai Thanasiri, a shareholder**, asked how many new projects the Company has planned to launch in each quarter of 2018.
